

The **SBS 245** offers all the advantages of the **SBS 2415** shown previously. The stainless steel door is the perfect look for a more professional style. Six wooden shelves are fitted within the wine compartment, four of them are mounted on pull-out telescopic rails and one is a bending half-shelf (see picture). Thus, providing storage for open bottles or display space.

The FrostSafe-System of the Freezer compartment keeps the cold air inside the appliance and the VarioSpace-System offers extra storage space. The BioFresh compartment has three pull-out drawers mounted on telescopic rails. One drawer is a DrySafe with low humidity for fish, meat and milk products, the other two are HydroSafes with adjustable humidity suitable for fruit and vegetables.

The two 24" built-in units are also available separately, offering a Wine-Freezer solution (**WF 1051**) and a full length refrigerator with BioFresh-drawers (**RB 1400**) as well.
