left appliance: CS 1301

right appliance: CS 1350

The 48" freestanding combined refrigerator-freezer, offers plenty of space to accommodate even the biggest trip to the market, including room for cool drinks for the whole family. Liebherr's combined refrigerator-freezers offer ergonomic solutions, with both refrigerator compartments at easy-to-reach heights. The attractively designed transparent drawers in the NoFrost freezer compartments give you a clear view of their contents. They are also extremely practical: they are extra deep, sealed all round to maintain temperature in the compartment and can be removed for convenience. The unique design of Liebherr's freestanding models feature fully stainless steel doors, and even stainless steel side walls – a perfect combination of design and functionality.

LIEBHERR

A delight in freshness
