SEO 90S 90CM BUILT-IN STAINLESS STEEL MULTI-FUNCTION OVEN WITH DOWNFOLD DOOR

When design purity achieves perfect results.

AEG ovens and cook tops have been designed to satisfy the demanding requirements of the North American family. All of the design and aesthetics normally acquainted with European design have been enveloped into the largest capacity ovens available.

The AEG 90cm single oven designed for wall mounting or under counter installation to compliment your AEG gas, ceran or induction cooktop.

In addition to the 8 cooking functions, this oven features the following:

- a massive 120 litre capacity
- 8 separate cooking functions
- Delay start / auto stop option
- Power ventilated triple glazed doors for cool touch safety
- Purposely designed telescopic shelf slide racking system for ease of use and non tip safety
- Excellent heat stability and insulation
- Light for easy viewing and to assist when cleaning

Revolutionary *Steam Clean* Ovens

The steam cleaning process now available in the AEG oven is energy efficient compared to Pyrolytic cleaning and much safer as it is not using high temperatures to incinerate grime.

SEO 90S – 90cm stainless steel oven
with pull-down door

SEO 76S – Also available in 30” width

Superb Performance

AEG single ovens feature 8 separate functions to cover every requirement.

- **Defrost** for a healthy result without heat
- **Convection** for traditional baking
- **Classic Bake** for well cooked bases and minimal browning
- **High Bake** for preheating and excellent results on pastries and pizza
- **Fan Forced** for multi level cooking with even temperatures
- **Fan Grill** rotisserie style results for browned and crispy surfaces
- **Full and Half Grill** for versatility in grilling or toasting
- **Fan convection** as an alternative cooking function
